# Stay Aware

The number one skill we want you to take away from City Scouts is **"situational awareness"**. This is important to keep safe and fully appreciate the city environment.

People who are more aware will stay safer: sense if a car is coming, a stranger is staring at them or if a friend has headed in the wrong direction.

Being attuned to your surroundings not only ensures safety but unlocks the richness of the city environment: interesting shops, intriguing art, people, parks, architecture or a friend passing by.

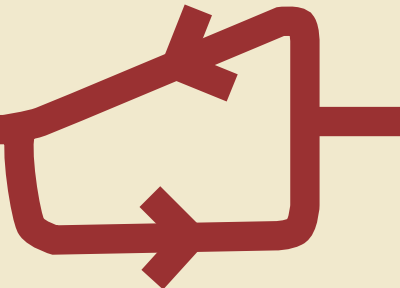

How to stay aware?

**Keep your head up;**

**Keep your ears open;**

Be curious about what's around you.

# Guidelines

Follow these guidelines to foster a safe, inclusive and enjoyable camp experience for everyone.

## **STICK WITH YOUR BUDDY**

Explore together. If you're alone, you need to find your crew or call your counselor.

## **BE KIND**

Treat others the way you want to be treated, be considerate with others.

## **BE RESPECTFUL**

Avoid using offensive or disrespectful language.

## **LISTEN TO COUNSELORS**

Follow the guidance of your counselors promptly and without complaint.

## **BE POSITIVE**

Approach situations and challenges with resilience and determined spirit - no whining!

## **DON'T YELL**

Speak so your voices can be heard - but no louder.

## **PAY ATTENTION TO PERSONAL BOUNDARIES**

Respect the personal space of others, ensuring everyone feels comfortable - especially in the sometimes cramped environment of streetcars, subways and buses.

## **BE INCLUSIVE**

Treat everyone with equality, embracing differences and foster a welcoming environment that excludes no one.

# TTC Safety Features

## SAFE PLACES ON THE TRACKS

Seek shelter under the platform lip or step on the reinforced plank over the third rail.

## EMERGENCY ALARM

The yellow strip above all the subway windows alerts the conductor of an emergency.

## YELLOW PLATFORM EDGE

This let's you know there's a safe distance to wait away from the tracks and provides a tactile surface for the visually impaired.

## KEEP YOUR DISTANCE

If someone makes you feel unsafe, stay calm and move to a distance where you feel comfortable: further down the platform, up the stairs, to another train car or even out of the station if necessary.

## EMERGENCY POWER OFF BUTTON

The blue light at the end of the platform kills the power to the third rail.

## DWA

The Designated Waiting Area has an intercom that goes straight to a TTC official and has a camera pointed right at you.

## Who are these people?

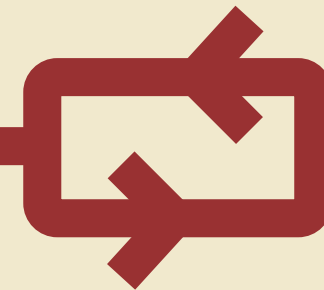

## TTC Etiquette

Wait until people have exited the train car before you get on. Keep backpacks between your legs during busy rides so you take up less space.

Offer up your seat to pregnant or elderly riders, those traveling with young kids, as well as people with visible or non-visible disabilities. The fold up chairs are fine to use, just keep an eye out for anyone who might need it.

Keep your feet off of the seats.

Take garbage with you and don't spill anything.

## TTC Tips

Take note of where your common exits are relative to the train to help save time. If your exit is at the far end of the track at your last stop then walk to the far end of your first stop while you're waiting.

Take note of the people coming off the platform if you're not sure if it's your subway you just heard pull into the station.

Text the stop number that's found at the bottom of street car stop signs to 889-992 for an estimate of when the next streetcar will arrive. The subway opens at 6 a.m. and closes at 1:30 a.m. There are night buses that run between those hours.

HOW WELL DO YOU  
KNOW THE CITY?

## BIG GAMES

Each Big Game will have different instructions included in the mission. Make sure to follow all of the specific instructions for any given challenge.

## ASK A

With supervision of your counselor, find an adult stranger and ask them what is specified in the mission. Make sure to ask them permission to record them.

## PRETEND

At a given location, pretend to be what is specified in the mission, must be convincing and video recorded for at least 10 seconds.

## REVIEW

Record a video review, make sure it's in detail and in depth. Short and non descript reviews will not be accepted!

## SACRIFICE

Record evidence of a sacrifice a camper made for their group! If the sacrifice occurs over long periods of time, record evidence by taking a photo next to a timer on your counselors phone.

For example, if a camper is wearing shoes on the opposite feet, the final photo submission should show the campers shoes and a timer at the designated end time.

# Submission Instructions

## GET PERMISSION BEFORE FILMING

Ask whoever you are filming if you have permission to film them.  
"Hey we are doing a camp challenge, would you mind if we asked you a question on video?"

## GET YOUR SUBJECT CLEARLY IN FRAME

Make sure that every part of the challenge is captured in the frame and is visible. No photos from 30 ft away either!  
"Pretend : to be a police officer | make sure to get the police station and the camper in the photo"

## CAPTION ANSWERS

Describe what happened in the video in the caption so it doesn't get disqualified for poor audio quality.  
Ask A - Sub Shop | You can't hear what the sandwich artist says but it's clear you're talking. Reilly needs to see that you got an answer from them to count the points

## CHECK WITH COUNSELOR

If you're unsure show your counselor the submission content to make sure it is acceptable to submit.

## SUBMISSIONS ARE SUBJECT TO REVIEW

Reilly has ultimate say, and any challenge may be removed if it wasn't done properly. You are free to report other groups' challenges if you don't think they were done properly.
